With an extensive background of education and specialized training in complex cardiovascular care, Dr. Adnan Aslam brings a wealth of knowledge and expertise to patients seeking top-rate heart and vascular health care in the northwest Houston area. A graduate of the University of Punjab in Lahore, Pakistan, Dr. Aslam furthered his studies under the direction of many of the nation's most esteemed doctors while completing internship and residency programs at the University of Illinois College of Medicine and Tulane University School of Medicine. He continues to contribute to the advancement of medical education by authoring and co-authoring a number of scientific publications, presentations and abstracts focused on cardiology.

Practicing at Northwest Houston Heart Center in Tomball, Dr. Aslam is committed to providing his patients with the highest quality heart and vascular care available, with a special focus placed on administering the latest diagnostics, state-of-the-art equipment and treatment options offered with compassion and concern for each individual's overall well-being.

Aside from his practice, Dr. Aslam is often hand-selected to participate as an investigator in national cardiology trials, testing new therapies and treatments. Dr. Aslam is certified by American Board of Internal Medicine in the fields of internal medicine, adult cardiology and interventional cardiology, he is also certified by the Certification Board of Nuclear Cardiology. In addition, he is distinguished as a Fellow of the American College of Cardiology and a Fellow of the Society for Cardiovascular Angiography and Interventions.
